DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

Park (6384749) discloses an apparatus that relates to a digital video coding method (Park: column 1, lines 6-8). This apparatus comprises "estimating contents of the stream header from contents of the units" (Park: column 4, lines 50-55, wherein the units are the GFID fields, the stream header is the picture header), "generating estimated stream-header information" (Park: column 4, lines 50-55, wherein the estimation generates the information), and "decoding the units according to the estimated stream header information" (Park: column 4, lines 50-55, wherein decoding is performed based on the estimated values). However, Park fails to disclose decoding the units using the estimated information before the stream header is received. Park also fails to disclose the particular processing steps involved with the unit header as claimed. A further search was conducted which failed to yield any prior art. Therefore, the prior art fails to teach or render obvious these limitations taken within the others in the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
